

Scenario:

You are a realtor working on selling houses in the Columbia market. You find yourself continuously on the go, and have trouble finding time to eat. You would like to order trail mix online so you always have a fun healthy snack.

Task 1: Create a trail mix with your 4 favorite items, title it: "Tims Trail", and order 20oz.

Task 2: Browse through existing trail mixes made by your friends, find "Jennys Jam", and order 8OZ (Note: I'd have to extend my prototype to do this)

Task 3: You loved Jennys Jam! Find this mix again, and give it a 5/5 rating, then make a comment: "The chocolate and cherries blend so well." (Note: I'd have to extend my prototype to do this)
